jEugene Announces Technology Partnership with iManage

New York, NY – July 13, 2016 – [jEugene](#), a provider of innovative quality assurance tools for lawyers, today announced a technology partnership with [iManage](#), the leading provider of work product management solutions for legal, accounting and financial services firms around the world. jEugene’s software detects problems in legal documents in order to help lawyers minimize risk of litigation while reducing costs. The partnership integrates the products of the two companies, allowing users to employ jEugene’s suite of tools directly from iManage Work.

“iManage Work is the most widely used work product management solution in law firms, corporate legal departments, and other professional services firms such as accounting and financial services,” said jEugene’s COO, Colin Angevine. “With today’s partnership, we are excited to bring our best-of-breed quality assurance solutions to iManage users to help them deliver high-quality legal documents with confidence.”

“iManage is looking forward to working with jEugene,” said Sandeep Joshi, vice president of Channels at iManage. “They provide a valuable service to lawyers by helping to verify the correctness of legal cross-references, to ensure definitional accuracy and to automate the enforcement of drafting policies. Now, our customers will be able to use jEugene’s advanced error-detection software directly from iManage’s document management system which will save time and increase accuracy of legal documents.”
