Blue Car Technologies Announces Technology Partnership with iManage

Allows seamless integration with Global Standard for eSignature and Digital Transaction Management provider DocuSign

London, August 2016 – Blue Car, a provider of tailored software solutions to the legal sector, today announced they have become an [iManage](#) technology partner. As part of the partnership, Blue Car will empower users of iManage Work Product Management solutions to digitally sign documents quickly, easily and securely through its integration with the global standard for eSignature and Digital Transaction Management (DTM), DocuSign, Inc. (DocuSign®).

Colin Fowle, managing director of Blue Car Technologies said, “Our DocuSign Connector streamlines the process of electronically signing documents from the lawyer’s familiar working environment within FileSite and DeskSite. Integrated with DocuSign, our solution provides end-to-end management of the digital signing process with completed signed documents returned to the document management system without user intervention, allowing revenue to be realized faster as documents get completed and signed error free in minutes.”

Joe Combs, EMEA channel partners director said, “Partnering with Blue Car is very exciting, they provide a valuable service for iManage and 3rd party solutions. Their latest integration with iManage Work and DocuSign seamlessly brings electronic

document signing straight to the user's iManage Work desktop so they can do business quickly, efficiently and securely.”

Richard Oliphant, EMEA General Counsel at DocuSign, said, “We’re pleased to have Blue Car Technologies join the DocuSign Global Trust Network. With DocuSign’s recent launch of our eIDAS-compliant Standards-Based Signatures suite, Blue Car’s DocuSign Connector for iManage will bring the power of eSignature and Digital Transaction Management to more law firms and lawyers in the UK and around the world so they can transact business with their clients with trust and confidence.”

About Blue Car Technologies

Blue Car Technologies is the UK-based provider of tailored software solutions to the legal sector and is a trusted vendor to many UK law firms, legal software vendors and high-profile European customers such as the European Court of Human Rights. Blue Car is a Technology Integration Partner of DocuSign and iManage and Microsoft Silver Partner.
