iManage Drive

HEAR DIRECTLY FROM iMANAGE DRIVE CUSTOMERS:

How a Global Media Enterprise Improved Security Using iManage Drive

INDUSTRY:
Media & Entertainment

EMPLOYEES:
18,000

USERS:
Studio and Entertainment Group

CHALLENGE:

A global media and entertainment enterprise was looking for help improving security protections for their legal documents and studio work product. They were responding to a recent security breach in their industry, and were interested in developing more robust governance and audit capabilities to protect themselves from a similar incident. The challenge was to deliver a solution that would be adopted and used by a broad range of business users, with minimal disruption to their workflow.

SOLUTION:

The enterprise implemented iManage Drive and rolled it out to business users across their studio and entertainment groups. Users were up and running in minutes, with no formal training required. Drive looks and feels like a network drive in Windows Explorer, so users were able to save, search, and edit documents without changing their work habits.

Users were up and running in minutes, with no formal training required.

RESULTS:

1 Single secure and governed project location for all content

2 Zero training, no user behavior change

3 Fully governed, trackable, and audited

iManage Drive replaces the studio's network of unsecured shared drives with a fully governed, trackable, and audited location to manage content. Equally important, Drive's intuitive and easy-to-use interface enables broad user adoption, and ensures that more of their valuable documents and emails are retained and secured.
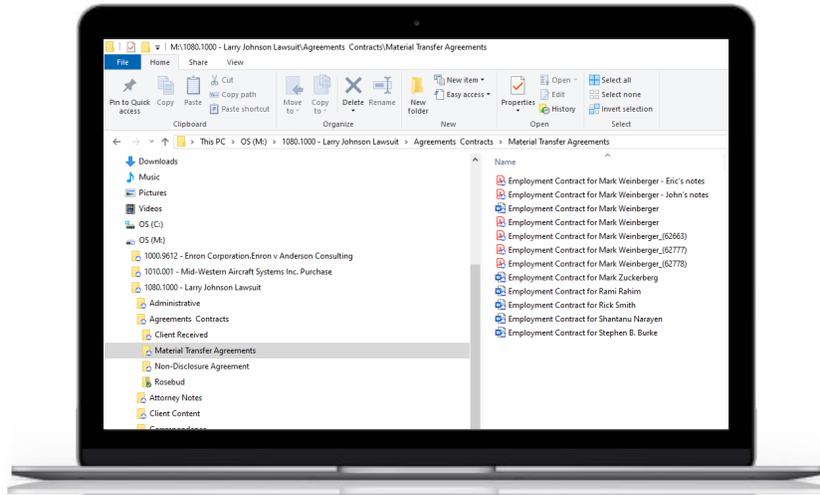

Enabling:

User Adoption

Secure Documents & Emails
