

# GILCHRIST CONNELL TAKES EFFICIENCY TO NEW LEVELS WITH IMANAGE

Cloud migration reduces operating costs, frees up resources, and empowers users with fast, secure access to business critical documents from anywhere.

**Industry:** Legal | **Headquarters:** Adelaide, South Australia

Based in Adelaide, Gilchrist Connell is a leading Australian litigation and disputes firm focusing on the insurance industry. It has offices in every mainland state servicing the whole country and its commitment is to Listen – Engage – Solve.

## TIME FOR A CHANGE Outgrowing on-premises infrastructure

- On-prem **infrastructure ageing** and costly
- Growth **increased demands** on IT team
- Continuous IT access a vital requirement
- Security breaches **threat to client data**
- Need to accelerate cloud strategy
- Easier document access required

## FAST, SECURE, AND SCALABLE Moving into the iManage Cloud

We reached a crossroads where I was spending all my time firefighting instead of focusing on more valuable tasks like optimizing the user experience.

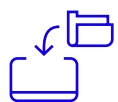

**Kirk Rogers, COO**

Rollout of **iManage Share** for better collaboration

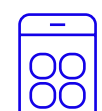

Implementation of **iManage Threat Manager** for security

Move away from consumer-grade file sharing sites

Seamless transition supported by partner **Morae**

Platform integrated with workplace apps like Microsoft

Migration to the cloud and upgrade to **iManage Work 10**

## SUPPORTING THE MOVE TO 'ZERO TRUST' Freeing resources and enhancing the user experience

We were already using iManage on premises and our users were happy with the level of functionality we had. After completing our due diligence, it was a no brainer to continue with iManage."

**Kirk Rogers, COO**

Simplified collaboration and improved security

Fast secure access to critical documents

Single source of truth for lawyers and other staff

Increased levels of overall efficiency
