

iMANAGE CLOUD VS ON PREM FEATURE COMPARISON

iMANAGE CLOUD FEATURE COMPARISON		
	On-premises	iManage Cloud
Single Global Endpoint	⊖	☑ Regardless of their location, users can access iManage Work using the cloudimanager.com endpoint and are automatically directed to the nearest data center, while still maintaining country-specific data privacy regulations.
Global Matter File	⊖	☑ Generate a single comprehensive view of information for a specific client, matter, or project, regardless of where the content is saved around the world. Users can now search across all libraries and see global results aggregated and presented in a single result set.
Microsoft Teams Integration via iManage Teams App	⊖	☑ Tight integration with Microsoft Teams enables easier collaboration and creation of content while maintaining iManage document security and governance protections.
Embed iManage Workspace in Microsoft Teams	☑	☑
Advanced Co-authoring	⊖	☑ If your organization uses Office 365, they can easily work together to create and edit documents in co-authoring mode while working from any location. Multiple users can simultaneously review and edit documents, right from iManage Work.
Per-file Document Encryption	⊖	☑
Global User/Group Management	⊖	☑
SCIM Support (Azure AD)	⊖	☑
Microsoft Power Automate Connector	⊖	☑
Connect to content in iManage Work as part of larger workflows or to automate repetitive tasks.		
Advanced Password Management	⊖	☑
iManage Tracker Integration	⊖	☑
Task and checklist management to improve work visibility, reduce risk, and empower knowledge workers.		
Upcoming Features Management	⊖	☑
Mobility iOS (Native)	☑	☑
Mobility iOS (Blackberry Dynamics)	☑	☑
